SUMMARY

MBA in Digitalization and Industrial Change with a strong technical foundation and experience delivering automation, process improvement, and cross functional work in global environments. Built an innovation governance and measurement framework for a decentralised multinational insurer. Seeking project management, digital transformation, and analytics roles.

WORK EXPERIENCE

ERHARDT + PARTNER GROUP | JUNIOR SOFTWARE DEVELOPER

Oct 2025 to Present | Alzenau, DE

- Build and enhance COBOL solutions for EPG LFS (warehouse management system), delivering customer specific functionality for global logistics clients.

GENERALI | WERKSTUDENT

Dec 2023 to Jun 2025 | Aachen, DE

- Delivered network automation scripts to test EU central data centres operational efficiency, supporting Generali's digital transformation.
- Conducted an MBA master thesis project with the Group Head Office on innovation governance and measurement for a decentralised multinational.

HEALTH VECTORS | SOFTWARE ENGINEER

May 2021 to Aug 2023 | Bangalore, IN

- Led backend and data pipeline development processing 100,000+ medical records per year, improving analytics and supporting a 10% revenue increase.

PROJECTS

MASTER THESIS: CORPORATE INNOVATION | ASSICURAZIONI GENERALI S.P.A.

Nov 2024 to Apr 2025 | Milan, IT

- Analysed innovation challenges in a decentralised multinational through literature review and interviews with innovation leaders.
- Developed a practical operating model across three pillars, culture, governance, and measurement, to reduce fragmentation and improve strategic alignment.
- Proposed a governance and KPI approach using an innovation thesis, staged portfolio decisions, and innovation accounting that combines learning metrics with business KPIs for scale up.

CAPSTONE PROJECT: BUSINESS MODEL INNOVATION | INFINEON

Oct 2024 to Jan 2025 | Aachen, DE

- Co developed circular economy business models for recycled PowerModules, combining market research and strategic analysis with business model design.
- Created a proposal linking sustainability impact with competitive advantage in power electronics, contributing to an award recognised innovation outcome.

CERTIFICATIONS

- Innovation Champion, Ninety & Generali, Nov 2024
- AI Nanodegree, Udacity, May 2020
- Data Scientist Career Path, Data-Camp, Mar 2020
- Stanford Machine Learning, Andrew Ng on Coursera, Dec 2019

VOLUNTEERING

RWTH BUSINESS SCHOOL | UNIBUDDY

Dec 2023 to Present | Aachen, DE

As a Unibuddy for RWTH Business School Aachen, I provide personal insights and guidance to prospective students, fostering an engaging and informative community experience.

GOOGLE DEVELOPER STUDENT CLUBS | LEADER

Aug 2020 to Jul 2021 | Jodhpur, IN

Led the university based community group, supported by Google Developers. Organized hackathons, workshops, and educational sessions.

MICROSOFT | LEARN STUDENT AMBASSADORS

Sep 2019 to Aug 2021 | Jodhpur, IN

Led the program for disciplines related to Azure Cloud Services and other Microsoft Developer Technologies.

CHARITY | CO-FOUNDER

Sep 2019 to Aug 2020 | Jodhpur, IN

Raised 200,000 INR in donations for needy children in partnership with the Taj Group of Hotels.
